

STEEL ADAPTABLE BOXES

Material	Steel
Finish	Pre-Galvanised
IP Rating	IP40 / IP54

ITCC heavy duty adaptable boxes can be used as a junction box for installation with electrical conduits ranging from 20mm up to diameter. Boxes are supplied with and without knock out holes so as users can drill the required holes according to installation needs. The boxes can be supplied with a rubber gasket to improve the IP rating to IP54. It could also serve as an utility junction box wiring connection purposes.

NOTE:

- Supplied with Steel screws as standard.
- Brass or Stainless steel screws optional.
- Boxes are supplied plain without K.O. holes.
- Boxes with K.O. holes can be supplied upon special request with client's dimensions.
- Other specifications, and thickness can be supplied upon request.
